

# PAUL WILSON ARCHITECT.

## ABOUT US

Paul Wilson founded the architectural practice bearing his name in 2005. Based on Washington, DC, the firm specializes in small residential and commercial projects. We also offer historic preservation services, including historic fabric surveys, advice on restoration techniques, regulatory reviews and renovation feasibility studies. Paul is a registered architect in the District of Columbia, the State of Maryland and a member of the American Institute of Architects.

Born and raised in Ohio, Paul holds degrees in architecture from The Ohio State University and masters and doctoral degrees in architectural history from the University of Virginia. In addition to his academic credentials, Paul's professional experience has ranged from the large commercial firm of Perkins and Will in Chicago, to the small residential design firm of Daniel Lee, Architect in Alexandria, Virginia.

Paul's academic training and professional experience have encompassed both the classical tradition stretching back 2,000 years, as well as more contemporary idioms.

Paul believes in personal service and designs specifically attuned to each client's individual needs and tastes. No stylistic box-checking here!

Check out our Facebook page to see a frequently updated sampling of current and recent projects.
